ODESIA launches a new Service: DBA-LIVE

MONTREAL, QUEBEC- (April 8th, 2008) - ODESIA Group Inc. ("ODESIA") (TSX VENTURE: ODS) announced today the signing of a new partnership with the Dba911-Live Service company. Through the partnership, ODESIA will launch a new business line, complementary to its Business Intelligence (BI) solutions: DBA-LIVE.

Secure and reliable databases can always be found at the core of BI applications. The DBA-LIVE service delivers solutions which respond to this preoccupation and offers a "peace of mind" insurance policy to corporate executives.

DBA-LIVE targets all companies, both large and small, who wish to improve the security and performance of their databases. "In today's business world, where data processing is a constant preoccupation for managers, it becomes increasingly difficult to hire and retain database specialists, who can be efficient while working with multiple complex technologies. DBA-LIVE is our solution to these problems. Thanks to our expert consulting team, we will be able to offer the services of temporary database administrators and answer the companies wide range of needs in this area," said Nicolas Bonnafous, the CEO of ODESIA Group.

DBA-LIVE also includes a remote database monitoring service, in order to offer the guaranteed functioning and recovery of all databases, 24/7. Richard Baby, the CEO of Dba911-Live, is proud to associate his company with the ODESIA Group for delivering this service. "By combining our strengths, we can offer a quality service which will be available to ODESIA's entire network of clients in Canada, Mexico and France."

About Dba911-Live Services

Dba911-Live Services is a company specializing in database management. The company's team of experts has more than 20 years of experience in managing databases for both large and small companies across Canada. www.dba911-live.com

About ODESIA Group

ODESIA Group is a Canadian-based international corporation specialized in BI solutions, decision processes, and data warehousing for large corporations. The management team at ODESIA has extensive knowledge and experience in leading the execution of BI processes in large enterprises. The team of nearly 220 professionals offers a high level of service and specialization. The partnerships that ODESIA has formed with diverse BI service providers constitute a further important feature of its offering. The Company's goal is to provide customers a complete solution, no matter the technical challenge. For more information, see www.odesia.com
