

## **ODESIA PARTNERS WITH IMPLEO TECHNOLOGIES**

**Montreal, May 24, 2007** – The ODESIA Group Inc. (“ODESIA”) (TSX-V: ODS) is pleased to announce the signing of a partnership agreement with The IMPLEO Group, an information technology and engineering consulting firm. Having recently won a number of important contracts in Europe, IMPLEO, with its head office in Geneva, Switzerland, has an immediate requirement for additional specialists in state-of-the-art information technology. The partnership between the two companies mandates ODESIA to select and recruit, in Canada, the personnel required to carry out these projects. The first phase of the service agreement, valued at \$2 million for 2007, will allow the hiring of fifty (50) new employees in the coming months.

Given the scope of this agreement, ODESIA will likewise have the opportunity to offer its own specialized business intelligence (BI) solutions to the many prestigious clients of IMPLEO. The partnership agreement between the two companies strengthens their respective competitive advantage by providing access to the latest and most resourceful methodologies. Both companies will benefit from the knowledge base built by ODESIA, and ODESIA’s experience will serve to rapidly locate the specific competencies required for each project.

“We are delighted to announce this partnership with IMPLEO, which has grown globally much as ODESIA has over the last several months. We’re confident that this agreement will form a solid foundation for the growth of both companies in the years ahead,” said Jean-Pierre Dubé, ODESIA’s Executive Vice-President, Client Affairs.

Jean Teman, President of IMPLEO, added: “This agreement between IMPLEO and ODESIA affords our swiftly growing company an enhanced ability to serve our clients. ODESIA brings a strong complementary skill-set to our solutions; its core competence and team of consultants meet the needs of our clients while diversifying our professional approach. This partnership answers the needs of today’s constantly evolving businesses, which operate in an environment that increasingly demands flexibility and rapid response. Our growth called for a partner of high accomplishment. This alliance with ODESIA answers that call.”

### About ODESIA Group

ODESIA Group is a Canadian-based international corporation specialized in BI solutions, decision processes, and data warehousing for large corporations. The management team at ODESIA has extensive knowledge and experience in leading the execution of BI processes in large enterprises. The team of nearly 150 professionals offers a high level of service and specialization. The partnerships that ODESIA has formed with diverse BI service providers constitute a further important feature of its offering. The Company’s goal is to provide customers a complete solution, no matter the technical challenge. For more information, see [www.odesia.com](http://www.odesia.com)

#### About The IMPLEO Group

The reputation of IMPLEO, an information technology and engineering consulting firm, is based on its ability to achieve strategic advantages for its clients. The company's approach is geared to meet the needs of its clients in Europe with the most appropriate solutions. As specialists in the banking, finance, and telecommunications sectors, IMPLEO offers its expertise in three general fields: Consulting Services, Project Development, and Technical Assistance and Expertise. IMPLEO's principal value-add derives from its ability to assemble teams of information specialists that encompass all the competencies required. It recruits these teams everywhere in the world on a regular basis, with an eye equally focused on state-of-the-art technology and the particular requirements of its clients.
