

## COURSE OVERVIEW

# BUSINESSOBJECTS ENTERPRISE XI R1/R2: ADMINISTERING USERS AND CONTENT WITH THE CMC

BOE210-SA210R2 - Administering Users and Content with the CMC Enterprise  
XI R1/R2 - 2 days

### Course Description

This two-day instructor-led classroom course explains how to perform the tasks in the central management console (CMC). These tasks involve supporting BusinessObjects™ Enterprise users and groups so they can access corporate data through the web portal in BusinessObjects Enterprise.

This corporate data can take the form of Crystal Reports®, BusinessObjects Web Intelligence®, or Desktop Intelligence™ documents, OLAP Intelligence reports, program objects, object packages, and popular third-party objects, such as Microsoft Word and Excel files, among others.

Note: This course does not discuss maintaining BusinessObjects Enterprise servers, which is taught in the BusinessObjects Enterprise XI R1/R2: Administering Servers - Windows course. The business benefit of this course is that it provides a foundation for you to effectively manage both users and content on the BusinessObjects Enterprise platform.

### Course Audience

The target audience for this course is system architects/administrators who are new to BusinessObjects Enterprise and who will be responsible for maintaining BusinessObjects Enterprise users, groups, and objects in their organization.

### Prerequisite Education

Not applicable for this offering.

### Prerequisite Knowledge/Experience

While not required for this course, experience with these products or technologies will be helpful: Windows conventions:

- Windows conventions
- Familiarity with Windows NT/2000 and NT administration
- NT enterprise security concepts (global/local groups, and directory structure)

### Additional Education

Additional education offerings that we recommend include:

- BusinessObjects Enterprise XI R1/R2: Administering Servers - Windows (Instructor-led or eLearning)
- BusinessObjects Enterprise XI R1/R2: Designing and Deploying a Solution - Windows (Instructor-led or eLearning)

### Applicable Certification
